The maintenance of all the properties of the University, including classrooms and laboratories, is done by the Engineering Office and the Garden Committee. There is a separate Engineering Branch headed by the Executive Engineer. The work of Engineering Office is to look after the repair and maintenance of the University buildings on the basis of allocation of maintenance funds. Maintenance of buildings is done by the Engineering Office of the University in coordination with the Estate section. The Estate Section maintains the records pertaining to the properties of the University. It processes the allocation of space in the University campus including allotment of University accommodation. The maintenance of equipment/instruments is undertaken under supervision of Dean Research Studies and Dean of respective Schools. For department specific equipment, maintenance/repair is undertaken by the concerned head of the department as per the laid down procedure of General Financial Rules (GFR) as is applicable in the University from time to time. For the purpose of maintenance of equipment, this is done through the Annual Maintenance Contract (AMC) or similar other processes. Customs duty exemption certificate is issued for any equipment imported by the University. The green initiatives of the University and maintenance of the gardens, parks and lawns of the University is done by the Garden Committee. Estate Sections of the University have engaged housekeeping staff for up-keeping and maintenance of the buildings and the infrastructure. The routine daily cleanliness of central offices, departments, hostels and other facilities is done through housekeeping staff. The Central

University of Jammu Games and Sports Committee maintains the sports facilities including gymnasium facilities. Please find below the Citation/Publication analysis year wise for CU Jammu. Also attached is complete bibliography from 2017 till 2021.

5.3.2 – Activity of Student Council & representation of students on academic & administrative bodies/committees of the institution (maximum 500 words)

University has an active student council and representation of students on academic and administrative bodies/committees of the institution. The student council is a body which deals with curricular and extra-curricular activities of students within the university. Student council helps share students' ideas, interests and concerns with faculty. They work with the student development office to decide on and approve new initiatives for the university in regard to events and activities. Student council members bring ideas, requests and feedback to the meetings and a democratic process is used to give the students a voice and make decisions in creating a year-long calendar. The council works under the supervision of DSW. Student council stages the community outreach, environmental cleanup, link with other colleges and deals with the work related to cultural, technical as well as social aspects of the university. The student council is involved in the representation of students in academic and administrative bodies/committees of the institution, such as grievance redressal committee where the term Grievance Redressal primarily covers the receipt and processing of complaints from students and staff, a wider definition includes actions taken on any issue raised by them to avail services more effectively. They are involved in prohibition and prevention of sexual harassment committee where they look into the matters which deal with prevention of outreaching the modesty of a woman. Students are also being involved in the discipline committee in various events so as to maintain the decorum of the event.

The various departments organized various Invited Lectures, Conferences, Seminars and workshops in last year with equal participation and collective representation of all faculty members of that department.

6.1.2 – Does the institution have a Management Information System (MIS)?

Partial

**6.2 – Strategy Development and Deployment**

6.2.1 – Quality improvement strategies adopted by the institution for each of the following (with in 100 words each):

Strategy Type	Details
Teaching and Learning	<p>1 The mode of teaching is more interactive and two way communications is encouraged rather than one side lectures. 2. Theory classes are adequately supplemented with practical(s). 3. For practical pedagogy and hands-on experience, the Department of Mass Communication New Media arranged visits to various media institutions such as All India Radio, Doordardarshan, and Newspaper offices and press. Interactions with media personalities developed students' perspectives and they created media products in the form of jingles, advertising spots, documentaries, short films, Newspapers and Radio Magazines. Some of the beyond syllabus scholarly activities taken up by the students are: 4. The students visited a Police Station in nearby area and understood the modalities of a crime report. 5. Some of the students are engaged in training as Radio Jockey in FM radio stations. 6. Some students are freelancing with the reputed newspapers of the state. 7. Some students are engaged in training with the local television channels. 8. All the departments follow the academic calendar issued by the University. 9. The department prepares its own timetable before the commencement of the semester. 10. Teaching plan of each subject is up loaded on the University Website for the information of the students. 11. Since inception of the university, Comprehensive Continuous Internal Assessment evaluation process is being followed. The University follows continuous evaluation system.</p>

12. Before the completion of each academic session the department holds a meeting of faculty members at the BOS /Departmental level discusses/reviews the courses offered to the students followed by updation in syllabi if needed and allots the courses to be taught in the next academic session by the respective faculty. 13. The department shows evaluated answer copies of tests as well as semester exams to the students. They can compare their answers with other students and see the best answers. 14. In addition to this, students are exposed to other academic activities in which they are required to show their talent, ability through participation in presentations, seminars writing assignments, giving them the habit of raising questions and seeking clarifications etc. Every student in the department is made to participate in wide variety of activities for a good exposure and likewise they are groomed to a wholesome personality.

Curriculum Development

1. The syllabus is designed keeping in mind the students faculty members and all other stakeholders' feedback as well as academic trends and relevance in the industry. 2.The syllabus is discussed thoroughly with subject experts in the Board of Studies, School Board and Academic Council and then finally approved. 3.Faculty periodically collects the feedback from the students about the syllabus through formal feedback from mechanism as well as classroom discussion. 4.In departmental meetings, every faculty rigorously contributes in preparing a list of modifications needed in the current syllabi, keeping in mind the student feedback as well as the present academic trend and its job market relevance. The agenda-comprising list of modifications is presented before the Board of Studies. Board of Studies comprises the members from both the academics and industry. Agenda items are deliberated and approved by the board for subsequent inclusion in the curriculum. Thus, a specified pattern for revision of existing programmes (allowing 10-20 changes) followed by the university, takes into account all major stakeholders thereby enhancing its academic and professional

	relevance.

7.1.2 – Environmental Consciousness and Sustainability/Alternate Energy initiatives such as:

Percentage of power requirement of the University met by the renewable energy sources

The University has installed solar water heaters in various Academics Blocks which ensures utilization of green and renewable sources of energy. The University has installed solar energy panels on the roof of its buildings. The street lights across the campus are being run through solar energy. The University is using CFL, LED and other five-star ratings electrical appliances which consume less electricity via-a-vis illumination and result in lesser energy utilization. Every endeavour has been made by the university to procure electrical equipment which have five star Griha rating or other star ratings as per BEE standard which ensures relatively lesser consumption of electricity

- The buildings are oriented North-South to save electricity during the day.

Sensor based energy conservation: The urinals/lavatories have sensor-based taps that enable water conservation. Waste Management- Waste management system has become one of the most important parameters in the development of smart cities and the same has been mandated by Swachh Bharat and Swasth Bharat, Govt. of India. In this regard the institution has taken several initiatives in the management of waste arising from the institution. Liquid waste generated by the institution is recycled through a water waste recycling plant. Two sewage treatment plants (STP) of 128 KLD and 320 KLD have been installed on the campus. These have the capacity to recycle waste water and generate fresh water. The treated water is recycled for gardening, floor washing and sprinkling water on the road during summer season. Rainwater harvesting- Rainwater harvesting conserves water as a valuable source and stops it from running off wastefully as sewage water. It provides water during the dry season. It also recharges the reservoirs of the water below the surface of the earth thus raising the level of the underground water table. The Central University of Jammu has many water harvesting pits through which most of the rainwater is captured and thus the runoff is minimized. Five water bodies are being created in the campus with a total water harvesting capacity of 80 lac gallons through watershed development programme. However, roof top rain water harvesting is also being planned. Bore well /Open well recharge: Central

University of Jammu is self-sufficient in catering its water requirement through bore wells, whereas in the initial stages water tankers would be used to meet the water demand of the campus, the institution is now not only self-sufficient to meet its own demand as also uses the water resources for meeting expenditure that has been incurred for putting the bore-well Construction of tanks and bunds: Three check dams have been constructed to harvest 80 lac gallons of watershed development programme. Waste water Recycling: Two sewage treatment plants (STP) of 128 KLD and 320 KLD have been installed on the campus. These have the capacity to recycle waste water and generate fresh water.

#### 7.2 – Best Practices

##### 7.2.1 – Describe at least two institutional best practices

Best Practice 1 1. Title of the Practice: "Creation of Online Systems for Facilitating Governance, Administration and Teaching-Learning" 2. Objectives of the Practice :To ensure fairness, transparency and efficiency in various processes, the Central University of Jammu has adopted the online systems in various areas. 3. The Context :The University has successfully implemented the online systems in place to ensure transparency and commitment to implement the policy of "Zero Tolerance against Corruption" in all processes. As also, ensuring smooth and clear flow of information across 4. The Practice :The

University has successfully implemented the following online systems in various areas:

- Online No-dues Application and Issues.
- Online Application of Email / Wi-Fi Account and Issue.
- Online Application for Anti Plagiarism Tool - URKUND.
- Online Application for CUJ Domain for Department / Centre / Hostel Website.
- University Information Management System.
- Online Admissions.
- Online Portal for Application and Screening for Non-Teaching Portals.
- Online Confirmation of Services of Faculty.
- Online Portal for Central Placement Cell for Students and Companies.
- Online DIQA Performa.
- Online Profile Management of Faculty Members and Non-Teaching Staff.
- Online Abstract Submission Academic and Research Profiles of Faculty Members.
- Use of virtual classroom software, web-casting and video-conferencing.
- Virtual Learning Environment.
- Online Platform for conducting Online Classes, Assignments, Webinars etc. for Faculty Members.
- Online Platform for Meetings and various other activities provided to University Officials.
- Online Platform for conducting Webinars and other online activities for departments.
- Online Examinations.
- 100 Payments through PFMS in respect of UGC/MHRD grants.
- Online Vendor Bill Processing and Tracking System.
- Online Application for Degree in Advance.
- Online Application for Request for Special Certificate.
- Centralized online admission process for UG, PG, and Ph.D. programmes.

5. Evidence of Success: The University has successfully implemented the online systems in various areas. For example, the university now has in-place centralized online admission process for UG, PG, and Ph.D. programmes. Furthermore, online teaching and learning has become an integral part of education worldwide owing to the unprecedented pandemic situation. Central University of Jammu also adopted online teaching and learning from March 2020 onwards, whereby students are being taught through various online platforms.

6. Problems Encountered and Resources Required: The major problem encountered in implementation is lack of training in the initial phase. The University was able to develop and implement the online systems in various areas through the ICT Centre of University. Access to digital education to all students was another challenge faced by the University, as many students hail from far flung areas where internet connectivity is an issue. For a substantial period many students were on 2G network as 4G network was restricted in JK. For the students without internet and equipment following measures were adopted: In case a student does not have access to internet and equipment (laptop or desktop), the local administration (including Gram Panchayat) may be requested to provide him/her with access to internet connectivity and equipment for educational purposes. In case a student does not have equipment like a Mobile phone, he or she may be advised to purchase it by availing loan facility banks/non-banking financial companies should be requested to provide loan facility with minimal paperwork.

Best Practice 2

1. Title of Practice: Internship Embedded Skill Based Programmes
2. Objectives of the Practice: To impart skill training to Indian youth through sectoral specific vocational education programs.
3. The Context: Under "National Skill Qualification Framework (NSQF)" of University Grants Commission (UGC), the Next-Generation Bachelor of Vocational (B. Voc.)" programmes are offered to address the critical knowledge and skill-sets gaps which are required to make the candidate "Industry Ready" and also shape "Young-entrepreneurs" in the tourism, retailing, banking and finance sectors of the economy. The Skill-Development component provides students with appropriate domain based skill, knowledge, practice and professional attitude, so as to become work ready. The general component which is about 40 of the total curriculum gives adequate emphasis to foundational understanding of the domain knowledge and communication skills. The focus is on developing job-specific skills rather than providing only a broad knowledge-based education.
4. The Practice: Central University of Jammu currently offers three B. Voc. programmes in the line of UGC. These programmes are offered level wise the tree year degree programme begins with a Diploma course leading to a Bachelor of Vocational Degree [B.Voc.] in the 3rd year. B.Voc. program offers multiple

entry and exit options. The program offers three exit options as follows: (1) Diploma after completing one year, (2) Advanced Diploma after completing two years, (3) Bachelor's Degree after completing three years. The Bachelor of Vocational Degree [B.Voc.] programmes incorporate specific job roles and their equivalent National Occupational Standards (NOSS) along with broad-based general education. B.Voc. (Tourism Management), B. Voc. (Retail Management) and B. Voc. (Banking Finance) programmes which are based on contemporary curricula, therefore, provide a new direction and thrust to Skill development in the tourism, retailing and finance which operate in a globally competitive business environment. The practice adopted is called Internship Embedded Skill Training Programme (IESTP) meant to bridge the gap between the real-life business and academic institutions. It provides students with opportunities to apply the concepts learnt in the class-room to real-life situations. As a course requirement, every B. Voc. learner of Central University of Jammu is required to complete an internship. 5. Evidence of Success: Internship Embedded Skill Training Programme provided students an opportunity to earn a modest stipend in skill knowledge sectors-tourism, retail, banking, finance and insurance (BFI). The aim of this 'Earn While You Learn' model is to enable the students to learn the skill by engaging in an internship in the real-life business/industry context. After completing B.Voc. Program graduates have two options available in front of them -take up employment or go for Higher Studies. 6. Problems encountered and resources required:The courses have been a great success with an adequate intake of students during the recent years. The courses could have been more impactful in imparting vocational education to the students of not only this region but also to the students from all across the nation but certain problems have hampered this program. The infrastructural deficiency has been a major jolt in the growth of the vocational education ecosystem since this is a skill-based program and requires retail/tourism/ computer labs to impart hands-on training sessions to the students, in absence of which it has been a great challenge to disseminate knowledge to the respective students. Part-time arrangement of faculty members has also been one of the biggest challenges faced by the program, such academic arrangements do not augur well for the program and the course since such faculty members leave the organization and the course midway whenever they get any better opportunity, thus permanent positions should be allocated for the proper functioning of the program and the same faculty member can be held accountable for the outcomes of the courses. Furthermore, financial assistance to these vocational courses for various curricular, field activities, industry interactions, orientation, training, and other related activities should be provided for the smooth functioning of the programs.
