- B. On a price calculated by an expert so appointed with mutual consent
- C. In case the parties do not agree with the amount calculated through mode as given in A or B above, the valuation shall be done on the basis of the expenditure incurred and/or the assets (tangible and intangible) generated. All expenditure incurred including salaries shall be compounded on a quarterly basis by a risk adjusted rate of return of 24%. This rate has been arrived keeping in general, that the expected rate of return in successful ventures is of order of 40-50%. The value of the company shall be treated as equal to this value. In case where the Director/promoter are working in the company without or nominal salary/remuneration, their contribution shall be calculated for this purpose as equivalent to the total emoluments drawn on the date of valuation by an Assistant Professor of CUJ including such emoluments like Basic, Dearness, House Rent Allowance and other allowances.
