Chapter-I: Instructions to the bidders

- Preface: The Central University of Jammu is presently functioning from two campuses, Administrative Block at Rahya-Suchani (Bagla), District Samba, Jammu and Temporary Academic Block & Hostels at Sainik Colony, Jammu. The University intends to purchase equipments / instruments for the Department of Nano Science & Materials from OEM / authorized dealers for the University, likely to be installed at both the campuses.
- 2. Submission of tender: The sealed tenders are invited for supply and installation of equipments for the Department of Nano Sciences & Materials under two bid system viz. Technical bid: consisting of all technical details along with commercial terms and conditions [filled in Annexure-I duly signed and stamp, EMD, relevant technical documents & D.D. of Rs. 1,000/- (if downloaded tender form is used)] and Financial bid [indicating item wise price for the items mentioned in the technical bid (Annexure-II)], in two separate sealed envelopes and should be super scribed as technical and financial bids accordingly. Both the sealed envelopes should be kept in a third envelope on which it should be super scribed 'Tender for equipments of Dept. of Nano Science & Materials'.
- 3. **Quotation of equipments / instruments:** The Bidder may quote for all equipments/ instruments or part of it as mentioned at Annexure-I and should agree to accept the part supply order as per the criteria of lowest quoted bid for each item. Unit prices are to be quoted both in figures and in words. In case of a discrepancy, that quoted in words / least will be taken as valid.
- 4. **Opening of bids:** Initially the technical bids will be opened and scrutinized. The firm, who meets the basic requirement as per documents furnished, may be invited for full fledged display / demonstration / to present the samples before opening of financial bid. The University will not bear any cost for presentation of samples. The committee of the University will inspect the samples, may visit the show room / items supplied at other organizations to ascertain the quality. The University may shortlist three to four best quality firms. The financial bid will be opened for those firms who qualify technically and whose sample has been agreed to the satisfaction level of the University. The decision of the University will be final in this regard.
- 5. **Selection of firm:** The firm will be selected amongst the shortlisted firm only and the equipments / instruments will be considered on lowest quoted basis item wise. Further, if the committee found that the quality of lowest quoted firm is not satisfactory, the committee may recommend and consider next lowest quoted firm. The decision of the committee will be final in this regard. The short listed tender along with the documents will be submitted to the competent authority and upon approval; the successful bidders will be issued purchase order.
- 6. **Alteration in the bid:** The bidder will not be permitted to alter or modify their bids after receipt by the University; however, the firm can withdraw the bid before the closing last date and time of the tender.
- 7. **Availability and submission of tender form:** The tender documents can be obtained in person from Procurement Branch, Rahya-Suchani (Bagla), District Samba-181143, Jammu (J&K) (Tel: 01923–249657) on payment of **Rs. 1,000**/- through DD favouring "Finance Officer, Central University of Jammu" payable at Jammu during working hours (10:00 to 17:00 hrs). The tender form can be downloaded from University website (www.cujammu.ac.in) and must be submitted along with the cost of tender form of Rs. 1,000/- and EMD. The downloaded tender form without cost of tender form will not be accepted. Last date to submit the tender is

- 11.04.2017 by 3:00 p.m. The filled in tender form can be dropped in tender box at the above address or can be sent through post. The bids will be opened on the same day in presence of the bidders at 3:30 p.m. or any other date convenient to the University authorities, which shall be intimated separately. Hence, the firm should write their phone numbers and email ID on outside the sealed envelope to pass the information, if required.
- 8. **Registration:** The firm should be registered with the competent authority to manufacture and supply of equipments / instruments, sales tax and service tax and also furnish self attested copies of the following documents:
 - (a) Certificate of registration with competent authorities to manufacture and supply of equipments / instruments
 - (b) Valid registration with sale tax and service tax authority
 - (c) TIN/PAN
 - (d) Valid quality certificate from competent authority (i.e. ISO, ISI etc).
 - (e) Service tax clearance certificate for the period ending 31.03.2016
 - (f) Experience certificate & User List
 - (g) Annual turnover with CA audited balance sheet for last three financial years (2013-14, 2014-15 & 2015-16)
- 9. All the columns in financial bid are to be filled in words and figures. The variation in words and figures, if any, the lowest shall be taken into account.
- 10. In case the successful bidder declines the offer of contract, for whatsoever reason(s), his EMD will be forfeited.
- 11. The University reserves the right to reject all or any tender in whole, or in part, without assigning any reason thereof.
- 12. **Cost:** The rates quoted should be inclusive of all taxes, levies, freight, insurance, transportation, installation including accessories etc at the destination. Rates and make of the equipments are to be quoted in the financial bid as per tender document (Annexure-II), else it may not be considered. All the above stated elements of taxes and others are required to be shown separately and distinctly. The University will provide *Custom duty* and *Central Excise duty exemption certificate* in terms of Government notification No 51/96-Customs dated 23-07-1996 and 10/97-Central Excise dated 1-03-1997 respectively. Further, the University will also provide Certificate under SRO 129 of 2012, if applicable, for exemption of *State Entry tax* on scientific instruments.
- 13. Office: The firm should have its office / authorized dealer / workshop / representative within Municipal limit of Jammu / Samba to provide service after sale and to furnish the addresses of service centre with telephone number along with technical bid. The firm not having authorized office / service centre at Jammu will be required to arrange the service / repair after sale and furnish the certificate to this effect.
- 14. **Supply:** The firm selected will be required to supply the equipments within the six weeks from the date of issue of purchase order.

- 15. **Validity of quotation:** All entries in the tender form should be legible and filled clearly. Any overwriting or cutting which is unavoidable shall be signed by the authorized signatory. The bid shall be valid for 90 (ninety) days from the date of opening.
- 16. Taxes deduction at source as per provision will be made by the University.

Chapter-II: Terms and conditions

- 17. In case the firm fails to supply the desired specification of equipments as per terms and conditions, the University reserves the right to place the order to the next higher bidder or outside agency and the difference of price will be recovered from the defaulter agency who has been awarded the initial order and this will be binding on the bidder.
- 18. The University does not pledge himself to accept the lowest quoted or any tender and reserve the right to accept the whole or any part of the tender or portion of the quantity offered and bidders shall supply the same / execute the order at the rate quoted by them.
- 19. **Rejection of tender:** The conditional tender, incomplete in any form, unfilled / unsigned bids, without required documents, EMD and cost of tender form (if downloaded form is used) shall not be accepted and on such bids any query / intimation will not be entertained. The tender documents are not transferable.
- 20. The committee may consider any bid, if feels that inadvertently certain required documents are not enclosed by the firm and the firm promises that the required documents obtained before the closing date of the tender will be furnished within stipulated time. The decision of the committee will be final in this regard.
- 21. **Specification:** The desired specifications and allied technical details are placed at Annexure-I, if required the same may be amended / up graded at the time of placing purchase order without increase in the quoted price. These are basic specifications; the firm may quote the same or higher specification as per enclosed annexure format only, without changing the specification and serial number. The committee may amend the specification and their decision will be final in this regard.
 - 22. Bid security / EMD: The filled in tender form without requisite security bid / EMD and cost of tender form Rs. 1,000/- (if the downloaded tender form is used) will not be considered. Both the DD (cost of Tender Form)/FDR (for EMDs) are to be drawn separately favouring "Finance Officer, Central University of Jammu" payable at Jammu. The EMD of bidders will be returned without interest after finalization of the tender. EMD of Successful Bidder(s) will be returned after receipt of Performance Security. 10% of the cost of Purchase order will be Performance Security and will be either submitted by the L-1 Firm in the form of Bank Guarantee or deducted by the University from the payment of Bill, in case bank guarantee is not supplied. The security bid / EMD amount is as follows:

SNo	Equipment / Instruments	Quantity	EMD amount of
			each item
01	Spin Coater	01	2,500
02	Box Furnace	01	2,500
03	Refrigerated Centrifuge	01	10,000
04	Electronic Micro balance	01	7,500
05	Hot Air Oven	01	5,000
06	Magnetic stirrer with hot plate	01	2,500

07	pH/Ion/Conductivity measurement	01	2,500
08	Ultrasonic Bath	01	2,500
09	Current/Voltage Source Meter	01	5,000
10	Fluorescence Spectrophotometer	01	1,00,000
11	Fourier Transmission Infra Red Spectrometer	01	90,000
12	Table top AFM (Nano AFM)	01	1,75,000
13	Electrochemical Workstation	01	90,000
14	Thermal evaporation system with electron gun	01	75,000
15	Deionized water system	01	25,000
16	UV Vis NIR Spectrophotometer	01	1,50,000
17	Refrigerator cum Freezer	01	7,500

Note: EMD for each equipment mentioned above is to be paid collectively (in case a bidder desires to bid for all items) or separately (in case a bidder desires to bid for few or any of the items).

- 23. **Company profile:** The bidders must submit their company profile and must mention their make/model of the equipments which are offered to be supplied. A list of organizations / agencies to which furniture has been supplied may be furnished along with copies of supply order, with the technical bid.
- 24. **Experience:** Bidder should be original manufacturer / authorized dealer and should have minimum Five years of experience in supply of similar equipments to Govt. / semi Govt. / PSU / reputed organisation. A certified copy of the same should be attached with the technical bid.
- 25. **Warranty:** All the equipments should be with onsite comprehensive warranty for minimum period of one years (or as per OEM warranty period, whichever is later) after satisfactory installation and agreed by the University. The firm should repair / replace the faulty items free of cost during the warranty period.
- 26. **Payment terms:** No advance payment will be considered. The payment will be release in Indian rupees in the following orders:
 - (i) 90% payment of purchase order: After 100% supply & installation of equipments, subject to certification by the University.
 - (ii) 10% payment of purchase order / security deposit: After availing the warranty period plus one month or on receipt of Bank Guarantee of any nationalized bank of equal amount for a period of warranty plus one month.
 - (iii) The purchase order may be placed in phase manner and the payment may be considered phase wise.
- 27. **Quantity:** The quantity mentioned in the tender document can increase or decrease without changing the quoted price at the discretion of the University and the decision of the University shall be final in all respect. This is a tender cum rate contract and registration of suppliers initially for a period of one year and the item offered in the tender can be reordered at the same rate, terms & conditions within a period of twelve (12) months extendable by next year mutually agreed by both the parties.
- 28. **Management services:** The firm would be required to provide the management / consultation services etc. in respect of the equipments to establish any labs / hall, free of cost as and when required. The firm would provide consultancy to CUJ on Products & technologies that

would provide more efficiency in working. The firm should also share best practices adopted in the industry free of cost.

- 29. **Rights of the University:** The University reserves all the rights to reject or accept any tender without assigning any reason or cancel or withdraw the tender notice in part of full. The University reserves the right to accept or reject any bid, and to annual the bidding process and reject all bids at any time, without thereby incurring any liability to the affected bidder or bidders of the ground for such action.
- 30. Late submission of tenders shall not be accepted. If the tenders are sent by post / courier, it should be ensured that cover should be intact at the time of reaching destination without any damage or loss. The University is not responsible for any delay on account of postal / courier services.
- 31. Acceptance of terms and conditions: The bidder shall sign and stamp each page of this tender document and all other enclosures appended to it as a token of having read and understood the terms and conditions contained therein and submit the same along with the bid. The bidder would fill up the information in the Annexure enclosed at the end of this document at Chapter–III in clear and legible terms. Annexure shall also have to be signed and stamped by the bidder or its authorized signatory.
- 32. **Termination of contract:** If supply of equipments / instruments is not found satisfactory, the purchase order will be cancelled by the University at any stage. The University reserves the right to decrease or increase the quantity at the time of placing the work order; the firm will undertake the same at the quoted rates.
- 33. The firm should attend all the calls in respects of the fault, efforts should be made to rectify the major fault within 48 hours. The firm is to provide one single point of contact for effective communication to book the fault for users to seek timely support.
- The University may procure certain equipments offered under DGS&D rate contract, the firm may quote for both DGS&D and Non DGS&D rates, if available. The University will procure the equipments on lowest quoted (L-1) basis from the shortlisted firms on item wise and the firm can quote for any items or all the items, the University decision will be final in this regard. If the University procures certain items under DGS&D rate contract, the firm will be required to set / configure the supplied equipments technically on other equipments.
- 35. **Penalty clause:** The supply and installation of equipments / instruments has to be completed within stipulated time period, in case of delay and the University is not satisfied with the stated reason, the University reserves the right to impose the penalty equivalent to 0.5% per week of the value of undelivered goods or unperformed services limited to a maximum of 10% value of the purchase order / left over cost. Once the maximum is reached, the University may consider termination of the contract / order without any notice and further serious action may be initiated.
- 36. **Settlement of dispute:** In case of any dispute, University Headquarter (Samba) will be the jurisdiction and the Registrar, Central University of Jammu, shall decide the issue and his decision will be final and shall be the binding on both the parties.
- 37. In case of any disagreement or dispute between the first party (i.e. Central University of Jammu) and the second party (i.e. agency) arising out of or due to the terms and conditions of

contact agreement, the Central University of Jammu shall have the discretion for settlement of such disputes by appointing a sole arbitrator and the award so made by the arbitrator shall be final and binding on both the parties. Jurisdiction shall be Jammu courts only, for any dispute.

Price for each should be quoted separately.
Approach: 4 mm linear motor, continuous or step-by-step approach Imaging modes: Static Force, Dynamic Force, Phase Contrast, MFM, EFM Advanced imaging modes: Spreading Resistance, Force Modulation Spectroscopy modes: Force—Distance, Amplitude Distance, Voltage—Distance Advanced spectroscopy modes: Current—Voltage, Stop By end value, Fwd & Bwd pause Lithography modes: Static Force, Dynamic Force, Oxidation Advanced lithography modes: Draw and load CAD vector graphics, Bitmap images Operating system/PC requirements: Windows 7 or above (32/64-bit), Size/Weight/Power: small/low/low Software's: For measurements & interfacing 13 Electrochemical Workstation Multichannel System for up to 11 potentiostat galvanostat in single chassis or more. It should be possible to control all the channels through one PC or upto two PCs and field upgradeable with accessories like RRDE, EQCM etc. Each channel should have following specifications. Price for each should be quoted separately.
approach Imaging modes: Static Force, Dynamic Force, Phase Contrast, MFM, EFM Advanced imaging modes: Spreading Resistance, Force Modulation Spectroscopy modes: Force—Distance, Amplitude Distance, Voltage—Distance Advanced spectroscopy modes: Current—Voltage, Stop By end value, Fwd & Bwd pause Lithography modes: Static Force, Dynamic Force, Oxidation Advanced lithography modes: Draw and load CAD vector graphics, Bitmap images Operating system/PC requirements: Windows 7 or above (32/64-bit), Size/Weight/Power: small/ low/low Software's: For measurements & interfacing 13 Electrochemical Workstation Multichannel System for up to 11 potentiostat galvanostat in single chassis or more. It should be possible to control all the channels through one PC or upto two PCs and field upgradeable with accessories like RRDE, EQCM etc. Each channel should have following specifications. Price for each should be quoted separately.
Imaging modes: Static Force, Dynamic Force, Phase Contrast, MFM, EFM Advanced imaging modes: Spreading Resistance, Force Modulation Spectroscopy modes: Force—Distance, Amplitude Distance, Voltage—Distance Advanced spectroscopy modes: Current—Voltage, Stop By end value, Fwd & Bwd pause Lithography modes: Static Force, Dynamic Force, Oxidation Advanced lithography modes: Draw and load CAD vector graphics, Bitmap images Operating system/PC requirements: Windows 7 or above (32/64-bit), Size/Weight/Power: small/ low/low Software's: For measurements & interfacing 13 Electrochemical Workstation Multichannel System for up to 11 potentiostat galvanostat in single chassis or more. It should be possible to control all the channels through one PC or upto two PCs and field upgradeable with accessories like RRDE, EQCM etc. Each channel should have following specifications. Price for each should be quoted separately.
MFM, EFM Advanced imaging modes: Spreading Resistance, Force Modulation Spectroscopy modes: Force—Distance, Amplitude Distance, Voltage—Distance Advanced spectroscopy modes: Current—Voltage, Stop By end value, Fwd & Bwd pause Lithography modes: Static Force, Dynamic Force, Oxidation Advanced lithography modes: Draw and load CAD vector graphics, Bitmap images Operating system/PC requirements: Windows 7 or above (32/64-bit), Size/Weight/Power: small/ low/low Software's: For measurements & interfacing 13 Electrochemical Workstation Multichannel System for up to 11 potentiostat galvanostat in single chassis or more. It should be possible to control all the channels through one PC or upto two PCs and field upgradeable with accessories like RRDE, EQCM etc. Each channel should have following specifications. Price for each should be quoted separately.
Advanced imaging modes: Spreading Resistance, Force Modulation Spectroscopy modes: Force—Distance, Amplitude Distance, Voltage—Distance Advanced spectroscopy modes: Current—Voltage, Stop By end value, Fwd & Bwd pause Lithography modes: Static Force, Dynamic Force, Oxidation Advanced lithography modes: Draw and load CAD vector graphics, Bitmap images Operating system/PC requirements: Windows 7 or above (32/64-bit), Size/Weight/Power: small/ low/low Software's: For measurements & interfacing 13 Electrochemical Workstation Multichannel System for up to 11 potentiostat galvanostat in single chassis or more. It should be possible to control all the channels through one PC or upto two PCs and field upgradeable with accessories like RRDE, EQCM etc. Each channel should have following specifications. Price for each should be quoted separately.
Modulation Spectroscopy modes: Force–Distance, Amplitude Distance, Voltage–Distance Advanced spectroscopy modes: Current–Voltage, Stop By end value, Fwd & Bwd pause Lithography modes: Static Force, Dynamic Force, Oxidation Advanced lithography modes: Draw and load CAD vector graphics, Bitmap images Operating system/PC requirements: Windows 7 or above (32/64-bit), Size/Weight/Power: small/ low/low Software's: For measurements & interfacing 13 Electrochemical Workstation Multichannel System for up to 11 potentiostat galvanostat in single chassis or more. It should be possible to control all the channels through one PC or upto two PCs and field upgradeable with accessories like RRDE, EQCM etc. Each channel should have following specifications. Price for each should be quoted separately.
Spectroscopy modes: Force—Distance, Amplitude Distance, Voltage—Distance Advanced spectroscopy modes: Current—Voltage, Stop By end value, Fwd & Bwd pause Lithography modes: Static Force, Dynamic Force, Oxidation Advanced lithography modes: Draw and load CAD vector graphics, Bitmap images Operating system/PC requirements: Windows 7 or above (32/64-bit), Size/Weight/Power: small/ low/low Software's: For measurements & interfacing 13 Electrochemical Workstation Multichannel System for up to 11 potentiostat galvanostat in single chassis or more. It should be possible to control all the channels through one PC or upto two PCs and field upgradeable with accessories like RRDE, EQCM etc. Each channel should have following specifications. Price for each should be quoted separately.
Distance, Voltage–Distance Advanced spectroscopy modes: Current–Voltage, Stop By end value, Fwd & Bwd pause Lithography modes: Static Force, Dynamic Force, Oxidation Advanced lithography modes: Draw and load CAD vector graphics, Bitmap images Operating system/PC requirements: Windows 7 or above (32/64-bit), Size/Weight/Power: small/ low/low Software's: For measurements & interfacing 13 Electrochemical Workstation Multichannel System for up to 11 potentiostat galvanostat in single chassis or more. It should be possible to control all the channels through one PC or upto two PCs and field upgradeable with accessories like RRDE, EQCM etc. Each channel should have following specifications. Price for each should be quoted separately.
Advanced spectroscopy modes: Current–Voltage, Stop By end value, Fwd & Bwd pause Lithography modes: Static Force, Dynamic Force, Oxidation Advanced lithography modes: Draw and load CAD vector graphics, Bitmap images Operating system/PC requirements: Windows 7 or above (32/64-bit), Size/Weight/Power: small/ low/low Software's: For measurements & interfacing 13 Electrochemical Workstation Multichannel System for up to 11 potentiostat galvanostat in single chassis or more. It should be possible to control all the channels through one PC or upto two PCs and field upgradeable with accessories like RRDE, EQCM etc. Each channel should have following specifications. Price for each should be quoted separately.
value, Fwd & Bwd pause Lithography modes: Static Force, Dynamic Force, Oxidation Advanced lithography modes: Draw and load CAD vector graphics, Bitmap images Operating system/PC requirements: Windows 7 or above (32/64-bit), Size/Weight/Power: small/ low/low Software's: For measurements & interfacing 13 Electrochemical Workstation Multichannel System for up to 11 potentiostat galvanostat in single chassis or more. It should be possible to control all the channels through one PC or upto two PCs and field upgradeable with accessories like RRDE, EQCM etc. Each channel should have following specifications. Price for each should be quoted separately.
Lithography modes: Static Force, Dynamic Force, Oxidation Advanced lithography modes: Draw and load CAD vector graphics, Bitmap images Operating system/PC requirements: Windows 7 or above (32/64-bit), Size/Weight/Power: small/ low/low Software's: For measurements & interfacing 13 Electrochemical Workstation Multichannel System for up to 11 potentiostat galvanostat in single chassis or more. It should be possible to control all the channels through one PC or upto two PCs and field upgradeable with accessories like RRDE, EQCM etc. Each channel should have following specifications. Price for each should be quoted separately.
Oxidation Advanced lithography modes: Draw and load CAD vector graphics, Bitmap images Operating system/PC requirements: Windows 7 or above (32/64-bit), Size/Weight/Power: small/ low/low Software's: For measurements & interfacing 13 Electrochemical Workstation Multichannel System for up to 11 potentiostat galvanostat in single chassis or more. It should be possible to control all the channels through one PC or upto two PCs and field upgradeable with accessories like RRDE, EQCM etc. Each channel should have following specifications. Price for each should be quoted separately.
Advanced lithography modes: Draw and load CAD vector graphics, Bitmap images Operating system/PC requirements: Windows 7 or above (32/64-bit), Size/Weight/Power: small/ low/low Software's: For measurements & interfacing 13 Electrochemical Workstation Multichannel System for up to 11 potentiostat galvanostat in single chassis or more. It should be possible to control all the channels through one PC or upto two PCs and field upgradeable with accessories like RRDE, EQCM etc. Each channel should have following specifications. Price for each should be quoted separately.
graphics, Bitmap images Operating system/PC requirements: Windows 7 or above (32/64-bit), Size/Weight/Power: small/ low/low Software's: For measurements & interfacing 13 Electrochemical Workstation Multichannel System for up to 11 potentiostat galvanostat in single chassis or more. It should be possible to control all the channels through one PC or upto two PCs and field upgradeable with accessories like RRDE, EQCM etc. Each channel should have following specifications. Price for each should be quoted separately.
Operating system/PC requirements: Windows 7 or above (32/64-bit), Size/Weight/Power: small/ low/low Software's: For measurements & interfacing 13 Electrochemical Workstation Multichannel System for up to 11 potentiostat galvanostat in single chassis or more. It should be possible to control all the channels through one PC or upto two PCs and field upgradeable with accessories like RRDE, EQCM etc. Each channel should have following specifications. Price for each should be quoted separately.
(32/64-bit), Size/Weight/Power: small/ low/low Software's: For measurements & interfacing 13 Electrochemical Workstation Multichannel System for up to 11 potentiostat galvanostat in single chassis or more. It should be possible to control all the channels through one PC or upto two PCs and field upgradeable with accessories like RRDE, EQCM etc. Each channel should have following specifications. Price for each should be quoted separately.
Size/Weight/Power: small/ low/low Software's: For measurements & interfacing 13 Electrochemical Workstation Multichannel System for up to 11 potentiostat galvanostat in single chassis or more. It should be possible to control all the channels through one PC or upto two PCs and field upgradeable with accessories like RRDE, EQCM etc. Each channel should have following specifications. Price for each should be quoted separately.
Software's: For measurements & interfacing 13 Electrochemical Workstation Multichannel System for up to 11 potentiostat galvanostat in single chassis or more. It should be possible to control all the channels through one PC or upto two PCs and field upgradeable with accessories like RRDE, EQCM etc. Each channel should have following specifications. Price for each should be quoted separately.
13 Electrochemical Workstation Multichannel System for up to 11 potentiostat galvanostat in single chassis or more. It should be possible to control all the channels through one PC or upto two PCs and field upgradeable with accessories like RRDE, EQCM etc. Each channel should have following specifications. Price for each should be quoted separately.
Multichannel System for up to 11 potentiostat galvanostat in single chassis or more. It should be possible to control all the channels through one PC or upto two PCs and field upgradeable with accessories like RRDE, EQCM etc. Each channel should have following specifications. Price for each should be quoted separately.
single chassis or more. It should be possible to control all the channels through one PC or upto two PCs and field upgradeable with accessories like RRDE, EQCM etc. Each channel should have following specifications. Price for each should be quoted separately.
channels through one PC or upto two PCs and field upgradeable with accessories like RRDE, EQCM etc. Each channel should have following specifications. Price for each should be quoted separately.
with accessories like RRDE, EQCM etc. Each channel should have following specifications. Price for each should be quoted separately.
Each channel should have following specifications. Price for each should be quoted separately.
each should be quoted separately.
No of Channels: 2 No.
Electrochemical Workstation
Specifications:
Compliance voltage: ± 18 V or better at ± 390 mA or more
Maximum Output Current: ± 390 mA or better at ± 18 V or
more Part 10 V
Output Voltage Range: ± 10 V or more
Current Ranges: smallest current range: ± 10 nA to current
range 100 mA in multiple ranges or more
Potentiostat Rise/fall Time: 300 ns or lower
Interface: USB interface for connection with PC
Input bias current: < 1 pA
Input Impedance of electrometer: >90GΩ // 10 Pf

Hardware for EIS measurements: Hardware and software for EIS measureme and galvanostatic control, over frequency ra MHz. It should be possible to perform EIS entire frequency range from 10 μHz to 1 currents. Frequency range in 10 μHz - 1 MF potentiostat galvanostat. Frequency resolurange ± 10 V. Data presentation: Nyquist Dielectric, Mott-Schottky, Data analysis: Find circle, Element subtraction.	mge of 10 µHz to 1 measurements over MHz upto 390 mA Iz combination with tion 0.003%, Input Bode, Admittance,						
1							
Electrochemistry Cell: It should consist of the following: 10 mL to 80 ml Glass cell 2 no, 20 mL to 8 Disc working electrodes with active area di Pt & Au each 2no, Pt wire Counter elect reference electrode double junction type for Non-Aqueous media 2 no, Suitable Lid for tube with valve 2 no, screen printed adapt graphene 25 each	ameter 3 mm of GC, rode 2 no, Ag/AgCl ruse in Aqueous and r the cell and purge						
Low volume (1-5ml) cell							
Electrochemical Software: Software should have facility to record	additional signal viz		·				
EQCM, bi-potentiostat etc. Import/export Vis & Generic interface for Net apprincluded. It should have facility to dissimultaneously. The software should supelectrochemical measurements: Cyclic Vo DC Voltammetry. Taffel Plots, Voltammetry, Square Wave Voltammetry.	plications should be play up to 4, plots port following basic bltammetry, Sampled Differential Pulse						
methods like Chrono-Amperometry, Cl	urono-Coulometry &						
Chrono-Potentiometry.	none couldineary &						
Computer & Printer:							
Compatible branded PC with i5 configura	ntion, Printer, 2 KVA						
Online UPS with one hour back up should						75000	_
14. Thermal evaporation system with	electron gun	01				75000	
Vacuum Chamber:							
Chamber Type: Box type Chamber Size: >380mm (W) x 380mm (H)) v 420mm (D))					-	
Chamber Material: Stainless still) X 42011111 (D))						
Chamber Feature: Extremely non magnetic	quality						
Chamber Opening: Front	•						
Substrate Holder: Rotating							
View Ports: For Substrate Assembly,							
Additional Port: For additional accessorie Power Supply:	S.						
LT Evaporation and Power Supply:							
LT Evaporation Feed through and Evapor	ation Source Holder: 2						
Holder type: Filaments / Baskets/Boats							
LT Power Supply: 200 Amp at 10V/100	Amp at 20V,						
Microprocessor controller HT Power Supply: 5000 volts DC Open of	ircuit/3500 volts at 50						
mA	neuro 5500 voits at 50						
L.T/H.T Controller: Microprocessor in th	e input/output circuit						
				-			
Vacuum System							
Turbo Molecular Pump:				_1	Da	ge 14 o	£ 2'

	Rotation Speed: 25,000/min.					
	Pumping Speed for N2: >3000 l/s					
	Run up time: <8min.					
	Gas throughput at full rotational speed for N2: 83.3 hPa l/s /					
	5,000 sccm					
	Noise Level: <45dB (A)					
	Interfaces: Remote					
	Weight: Low					
	Cooling Method: Air					
	Power consumption at ultimate pressure: < 160 W (590 W)					
-	Ultimate pressure according to PNEUROP: < 6*10-9 hPa					
	Rotary Vacuum Pump:					
	Rotation Speed: >1,500/min.					
	Pumping Speed: >100 m3/h					
	Pump Type: Two Stage					
	Noise Level: <60dB (A)					
	Operating Fluid Filling: 2 L					
	Weight: Low					
	Cooling Method: Air					
	Rated Power: <1KW					
.	Ultimate Pressure with Gas ballast: 1.5 hPa					
	Vacuum Measuring Gauges:					
	Stabilized Digital Pirani gauge model: Two Pirani gauge heads					
	for dependently monitor the roughing (chamber) and backing					
	pressure.					
	SAFETY DEVICES					
	Cabinet doors: Safety panel switches to cut off RF/DC Power					
	supply					
	Vacuum switch: For RF/DC Power supply					
	Over load protection: For Rotary pump, Motor through preset					
	current starter.					
15	Deionized water system	01				25000
3	STAGE-1					
	Pretreatment system:					
	Three stage pretreatment system with 10, 5 & 1 micron spun					
	filters with 10" long housing for removal of suspended particles					
	and to take care of Fouling Index (FI) and Chlorine in feed					
1	water.					
	ANALYTICAL GRADE WATER SYSTEM:					
	The system should respond favourably to feed water having FI					
	approx 10, total Free Chlorine <0.5 ppm and Feed Water					
	Conductivity upto 2000 µs/cm; maximum silica 30 ppm.					
	STAGE-2		-			
	Second stage system should have purification process; primary					
	purification by a pre-treatment, secondary purification through					
-	RO membrane, final purification step should involve a self-					
ĺ	regenerating Electro-deionization module to avoid cartridge					
	replacement. System should be microprocessor controlled with				:	
	continuous water purity monitoring. System should have photo-			j.		
	oxidation technology (with UV lamp) ensuring that bacteria					
-						
	counts are low. System should have unique integral					
	recirculation ensures optimum water quality at point of					
	dispense.					
	Product Water Quality:					
	Resistivity : 5 to >15 m Ω at 25 deg. C (MegaOhm C).					
-	TOC :<30 ppb					
	100 . ~30 ppu					

	Bacteria :<1 cfu/ml		т				_
	Production Rate: 10 liters / Hr at 25 deg. C.						
	pH : Effectively neutral						
	System should have 60 to 75 liters HDPE reservoir with level						
	sensors and switches from Original Manufacturer. The water						
	purification system should display the water level in %age and						
	graphical manner to know the water level in the reservoir.						
- 1	STAGE -3						
	Third Stage system should have facility to remove Ionic and						
	organic impurities by the polishing purification pack.						
	Product water resistivity and temperature are measured						
	before dispense and indicate when the purification pack						
	needs to be replaced.						
	System should have auto volume dispense for drop by drop						
	facility like a pipette (50ml to 7500ml).						-
	, ,						
	System should have on-line monitoring for Resistivity or						
	Conductivity and TOC.						
	System should have height adjustable dispenses point which						
	glides easily up and down to accommodate any size of						
	container.						
	System should have one time sanitization for 1 year.						
	The water within the unit should be recirculated through the purification technologies to maintain purity.						
	• • •						
	The system should have the safety feature includes -Low feed						
	Shut-Off, Audio-Visual Alarms, PIN coded system settings,						
	Dispense shut-off during disinfection Auto-restart.				*		
	The system should meet ASTM Type I, ISO 3696, NCCLS						
	Type I and USP & EP specification.			1			
	The system should be European CE and UL certified as well as						
	ISO 9001 for quality products. The system should have recirculation of the purified water to						
	maintain consistent peak quality.						-
	Cartridge identification technology provides full traceability and						
	history of each cartridge for full validation and other GLP						
	requirements. The system to be supplied with validation						
	documents like IQ, OQ and PQ for system validation						
	Output Details:						
	♦ Inorganic : 18.2M Ω -cm @ 25°C						
	♦ TOC : <5 ppb						
	♦ Bacteria :< 0.1 CFU/ml						
	♦ Bacteria endotoxin: :<0.001EU/ml						
	♦ DNase : <4pg/μL					-	
	♦ RNase : <0.01 ng/ml						
	♦ Flow Rate : 2 Ltr./min.	,					
	Particles : Ultrafilteration						
	Note: Vendor should quote 3 years consumables with AMC						
	charges for 3 years also and 3 years warranty on R.O. with 2 KVA online UPS with 1 hour backup.

better (UV-Vis) with 0.01nm steps 0.20 to 20 nm or better				
(NIR)				
Photometric Range:				
8 Abs or better				
Photometric Accuracy: 0.002 Abs or better				
Resolution : ≤ 0.05 nm (UV-Vis), and ≤ 0.2 nm (NIR) or better				
Wavelength Accuracy:				
± 0.08 nm or better (UV-Vis range)				
\pm 0.4 nm or better (NIR range)				
Stray Light: $\leq 0.00007\%$ or better (at 220 and 370 nm)				
Source: Pre-aligned Tungsten Halogen source (visible)				
Deuterium source (UV)				
Detectors : Full range (UV-Vis-NIR) compatible (Please specify				
the detectors).				
Baseline Flatness : Better than or equal to ± 0.0008 A from 200-				
3000 nm,0.2 Sec SAT, no smoothing applied (2nm slit/SBW for				
UV/VIS)			1	
Noise Level UV/VIS (Abs/RMS): Better than or equal to				
0.00005, 0A and 500 nm (2nm slit/SBW)				
Noise Level NIR: Better than or equal to 0.00004, 0A and				
1500 nm (2nm slit/SBW)				
Power Requirement: As per Indian Standard				
Software : Compatible user friendly software For operating the	ļ			
basic equipment, upgradable free on net in future.				
Sample Compartment: Suitable for utilizing all necessary				
accessories such as solid, liquid, thin films, paper, cloths etc.				
Solid sample Holder:02 Nos Solid sample transmission holder				
for thin Film/solid samples etc				
Quartz Cuvettes:				·
Pair of Quartz Cells of 3 ml capacity and 10 mm path-length				
for UV VIS & NIR Range				
Desktop PC and Printer:				
Suitable Branded factor supplied PC OR i7				
OPTIONAL: Online UPS: Suitable capacity UPS with at least				
30 minutes back up & laser Printer		-		
Additional /optional accessories to be quoted itemized price.:				
100 mm DRA accessories with powder holder, film holder				
• polarizer and depolarizer	01		<u> </u>	7500
17. Refrigerator cum Freezer	01			7500
 Finish: interior and exterior: hips & pre painted steel 				
Insulation: HCFC and CFC free				
• Capacity (L): 250- 300 Lit				
Door: double solid door each for refrigerator & freezer				
• Storing configuration : refrigerator: 3 wire + 2 solid				
baskets (½ width), 4 solid door baskets (2 full width, 2				
½ width) / freezer: 2 solid drawers, 1 solid flap				
Defrost: auto defrost in refrigerator				
Door gasket type: Magnetic				
Control: single electronic controller on refrigerator				
compartment				1 -
• Set point: +5C				
Settable range: 4 to 6 deg C (Refrigerator)				
Settable range: 4 to 6 deg C (Refrigerator)				

•	Alarm: high temp alarm (11 deg C), low temp alarm (1 deg C) – Refrigerator Settable range freezer: -19 to -21 Refrigerant: R600A Compressor hp: 1/6 Access port (16mm): yes Pre-wired cord and plug type: European/Asian Full load amperes: 0.8 Voltage: 220-230v 50HZ CE mark: yes		
	Total amount of EMD	 	

- 1. I have carefully read and understood all the terms and conditions of the tender and here by convey my acceptance of the same.
- 2. The information / documents furnished along with the above application are true and authentic to the best of my knowledge and belief. I / We, am / are well aware of the fact that furnishing of any false information / fabricated document would lead to rejection of my tender at any stage besides liabilities towards prosecution under appropriate law.
- 3. **Declaration:** I hereby certify that the information furnished above is true and correct to the best of my / our knowledge. I understand that in case any deviation is found in the above statement at any stage, I / we will be blacklisted and will not have any dealing with the University in future.
- 4. The firm is not a black listed firm, if found at later date, my tender can be rejected, even after awarded.

FINANCIAL BID

Chapter—IV: Financial bid: To be utilized by the bidders for quoting their prices of equipment/instruments items wise along with specification and to submit to Central University Jammu along in separate sealed envelope.

Sl. No	Specification	Qty. Req. (Approx)	Make & model	Basic Cost* (In rupees)	Total Cost* (In rupees)
1	Spin Coater	01			
	Speed: 100-6000 rpm				
	Plate: Stainless steel (Thickness>20mm)				
	Sample Holder: Detachable				
	Sample Holder Size: 2, 4 and 6 inch dia				
	Sample Holder hole seize: 2mm dia				
	Microprocessor,				
	Speed controller: Digital Display				
	Time controller: Digital Display				
	Frame: Epoxy coated MS and Aluminum Gas Purging				
2.	Operated : AC 100-300V, 50 Hz	01			
۷.	Box Furnace	01	-		
	Temperature range: RT °C - 3000 °C Accuracy at least: ±1-5 °C				
	Accuracy at least. ±1-3 °C Accuracy over time at most: ±1-2 °C				
	Ramp rate: 5-20 °C				
	Interior Box dimensions (W x H x D): 20 cmx 20 cmx 30 cm				
	Low power consumption				
	Full programmable and Adjustable (particular temperature can				
1	be maintained for particular time and then subsequent				
	temperature for another time)				
	Digital display				
	Maximum temperature gradient throughout the box: ±5 °C				
	Good thermal stability				
3.	Refrigerated Centrifuge	01			
	Sample Holder: Detachable				
	Capacity: 6-8 x 15-50 mL (fixed angle)				
	Additional Sample Holder: For 1.5-2.0 ml				
	Speed range: 300-15000 (or more) rpm,				
	Adjustable in increments: 100 rpm				
	Temperature range: -40C to RT Time Setting: 1-60 minutes ±1 minute;				
	Display: Digital				
	Noise Level:<40dBA				
	Stability during operation: High				
4.	Electronic Micro balance	01	1	+	
	Measurable limit: upto 1 microgram i.e 0.001mg				
	Accuracy at least: 0.5 microgram				
	Display: Digital				
1	Programme for: Self calibration				
	Good isolation from air				
5.	Hot Air Oven	01			
	Temperature range: RT - 300 °C

Citiasonic Bath
Capacity: 4 lit.
Bath: Stainless steel
Controller: Microprocessor,
Vibration controller Display: Digital
Time controller Display: Digital Display
Mesh Size: 5mm, 10mm, 20mm
Operated: AC 100-300V, 50 Hz
Cultery voitage Source Meter
voltage/current and have 2 independent channels in the same
unit
Voltage capability: 200 Volts,
Source resolution of 5uV and measure resolution of 100nv or
better
Current capability: 1.5A DC and 10 A pulses with source
resolution of 3pA and measure resolution of 110fA or better
resolution of 3pA and measure resolution of 110fA or better Per channel capability: 30W or more simultaneously on both the
resolution of 3pA and measure resolution of 110fA or better
resolution of 3pA and measure resolution of 110fA or better Per channel capability: 30W or more simultaneously on both the channels
resolution of 3pA and measure resolution of 110fA or better Per channel capability: 30W or more simultaneously on both the
resolution of 3pA and measure resolution of 110fA or better Per channel capability: 30W or more simultaneously on both the channels Provide 10A@5V in pulse mode and pulse width of 1ms or more
resolution of 3pA and measure resolution of 110fA or better Per channel capability: 30W or more simultaneously on both the channels Provide 10A@5V in pulse mode and pulse width of 1ms or

	Software: Functions like voltage/current sweep/ steps, should			
	able to store the data and graphs and more			
	System should have capability to upgrade to more than 7 SMU		1	
i	units in one system for future expansion.			
10.	Fluorescence Spectrophotometer	01		 ,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,
	Modes: Multiple data collection modes including fluorescence,	• .		
	phosphorescence, chemi-luminescence and bio-luminescence.			
	Wavelength range: 1.5 nm to 18 nm or better			
	Detector Spectral Range: 190 to 900			
	(both excitation and emission)			
	Scan speed: 20000 nm /min or better.			
	Detector: PMT both excitation and emission.			
	Kinetic Mode: Kinetic mode and 3 D plotting with option to			
	collect continuously for minimum 7 Days.			
	Source: Xenon flash lamp, flash at 80 Hz to allow fast data			
	collection.			
	Holders for sample: 500 μl.			
	Signal-to-noise ratio >750:1 for the Raman Band of Water			
İ	Data collection time: Microsecond time intervals for			
1	phosphorescence applications.			
1	Cuvettes: 500µl, 1ml, 3ml		*	
1	OPTIONAL Accessories: solid sample holder with necessary			
	accessories for powder, film			
	Additional holders for crystal, Gel sample.			
	Local items: Suitable PC, Printer, Suitable Online UPS with at			
	least 30 min backup.			
11.	Fourier Transmission Infra Red Spectrometer	01		
	Wavelength Range: 5100–100 cm ⁻¹ or better			
	Wavenumber Accuracy: 0.09cm ⁻¹ or better			
	Wavenumber reproducibility: 0.05 cm-1 or better			
1				
	Spectral Resolution: 2 cm-1 or better			
	Peak to peak noise: 30,000 : 1 for 1 minute, at 4 cm-1			
	Source: Mid IR source, user friendly with 3 years free			
	replacement warranty			
	Reference Laser: Solid state laser with 5 year warranty			
	Interferometer: Permanently aligned with minimum five years			
	warranty.			
	Detector: Must be DTGS/DLaTGS Detector			
	Optics: Completely sealed and desiccated optics with life	·		
	indicator			
	Software: Suitable software for Spectral collection, Quantitative			
	analysis, baseline correction, smoothening, derivitazation,			
	spectral deconvulation, library search etc.		-	
	Accessories:			
	4. Diamond ATR accessory should be quoted for analysis	1		
	of corrosive and reactive solids, liquids, resins,			
	powders, gels etc			
ľ	5. Genuine & OEM Spectral Libraries of 8,000		1	
	compounds including common compounds, pharma,			
	polymer, minerals ,Paints, drugs etc.			
	6. Suitable branded computer, printer & UPS.			
	Installation and training: Installation and training to users should			
	be given at our laboratory by a trained Application engineer.			
	Optional Items: DRA& Specular reflectance accessories.			
12		01		
	Minimum XY-range (resolution): 70µm (1.0nm)			
	1 Minimum 7. 1-1 ange (resolution), 70 mm (1.0 mm)	1

13	Electrochemical Workstation	01			
	Multichannel System for up to 11 potentiostat galvanostat in				
	single chassis or more. It should be possible to control all the				
İ	channels through one PC or upto two PCs and field upgradeable				
	with accessories like RRDE, EQCM etc.				
	Each channel should have following specifications. Price for				
	each should be quoted separately.			1	
	No of Channels: 2 No.				
	Electrochemical Workstation				
	Specifications:				
	Compliance voltage: \pm 18 V or better at \pm 390 mA or more				
	Maximum Output Current: ± 390 mA or better at ± 18 V or	1			
	more		-		
	Output Voltage Range: ± 10 V or more				
	Current Ranges: smallest current range: ± 10 nA to current				.
	range 100 mA in multiple ranges or more				
	Potentiostat Rise/fall Time: 300 ns or lower				
	Interface: USB interface for connection with PC				
	Input bias current: < 1 pA				
		1			1
	Input Impedance of electrometer: >90GΩ // 10 Pf				i

Haan Mee coppro	Hardware for EIS measurements: Hardware and software for EIS measurements in potentiostatic and galvanostatic control, over frequency range of 10 μHz to 1 MHz. It should be possible to perform EIS measurements over ntire frequency range from 10 μHz to 1 MHz upto 390 mA urrents. Frequency range in 10 μHz - 1 MHz combination with otentiostat galvanostat. Frequency resolution 0.003%, Input lange ± 10 V. Data presentation: Nyquist, Bode, Admittance, Dielectric, Mott-Schottky, Data analysis: Fit and Simulation, Find circle, Element subtraction. Electrochemistry Cell: It should consist of the following: O mL to 80 ml Glass cell 2 no, 20 mL to 80 ml Glass cell 2 no, Disc working electrodes with active area diameter 3 mm of GC, Dt & Au each 2no, Pt wire Counter electrode 2 no, Ag/AgCl efference electrode double junction type for use in Aqueous and Non-Aqueous media 2 no, Suitable Lid for the cell and purge ube with valve 2 no, screen printed adapter, carbon, gold, and graphene 25 each Low volume (1-5ml) cell Electrochemical Software: Software should have facility to record additional signal viz EQCM, bi-potentiostat etc. Import/export ASCII. Ready-to-use Vis & Generic interface for Net applications should be included. It should have facility to display up to 4 plots simultaneously. The software should support following basic electrochemical measurements: Cyclic Voltammetry, Sampled DC Voltammetry. Taffel Plots, Differential Pulse Voltammetry, Square Wave Voltammetry. Electrochemical methods like Chrono-Amperometry, Chrono-Coulometry & Chrono-Potentiometry. Computer & Printer: Compatible branded PC with i5 configuration, Printer, 2 KVA Online UPS with one hour back up should be quoted	01		
	Thermal evaporation system with electron gun Vacuum Chamber: Chamber Type: Box type Chamber Size: >380mm (W) x 380mm (H) x 420mm (D)) Chamber Material: Stainless still Chamber Feature:Extremely non magnetic quality Chamber Opening: Front Substrate Holder: Rotating View Ports: For Substrate Assembly, Additional Port: For additional accessories Power Supply: LT Evaporation and Power Supply: LT Evaporation Feed through and Evaporation Source Holder: 2 Holder type: Filaments / Baskets/Boats LT Power Supply: 200 Amp at 10V/ 100 Amp at 20V, Microprocessor controller HT Power Supply: 5000 volts DC Open circuit/3500 volts at 50 mA L.T/H.T Controller: Microprocessor in the input/output circuit Vacuum System Turbo Molecular Pump:	01		

			 		1
	Rotation Speed: 25,000/min.				
	Pumping Speed for N2: >3000 l/s				
	Run up time: <8min.				
	Gas throughput at full rotational speed for N2: 83.3 hPa l/s /				
	5,000 sccm				
	Noise Level: <45dB (A)				
	Interfaces: Remote				
	Weight: Low				l
l	Cooling Method: Air				
	Power consumption at ultimate pressure: < 160 W (590 W)				
	Ultimate pressure according to PNEUROP: < 6*10-9 hPa				
	Rotary Vacuum Pump:				
	Rotation Speed: >1,500/min.				
	Pumping Speed: >1,500 m3/h				
	Pump Type: Two Stage				
	Noise Level: <60dB (A)				
	Operating Fluid Filling: 2 L				
.	Weight: Low		ļ		1
	Cooling Method: Air				
	Rated Power: <1KW				
	Ultimate Pressure with Gas ballast: 1.5 hPa				
	Vacuum Measuring Gauges:				
1	Stabilized Digital Pirani gauge model: Two Pirani gauge heads				
	for dependently monitor the roughing (chamber) and backing				
	pressure.				
	SAFETY DEVICES				
	Cabinet doors: Safety panel switches to cut off RF/DC Power				-
-	supply		1		
	Vacuum switch: For RF/DC Power supply				
	Over load protection: For Rotary pump, Motor through preset				
	current starter.				
15	Deionized water system	01			
	STAGE-1				
	Pretreatment system:				
	Three stage pretreatment system with 10, 5 & 1 micron spun				
	filters with 10" long housing for removal of suspended particles				
	and to take care of Fouling Index (FI) and Chlorine in feed				
	water.				
	ANALYTICAL GRADE WATER SYSTEM:				
	The system should respond favourably to feed water having FI				
	approx 10, total Free Chlorine <0.5 ppm and Feed Water				
	Conductivity upto 2000 µs/cm; maximum silica 30 ppm.				
	STAGE-2				
	Second stage system should have purification process; primary				
	purification by a pre-treatment, secondary purification through	1.		ľ	
	RO membrane, final purification step should involve a self-				
	regenerating Electro-deionization module to avoid cartridge		-		
	replacement. System should be microprocessor controlled with				
	continuous water purity monitoring. System should have photo-				
	oxidation technology (with UV lamp) ensuring that bacteria				
	counts are low. System should have unique integral				
	recirculation ensures optimum water quality at point of				
	dispense.				
	Product Water Quality:				
	Resistivity : $5 \text{ to } > 15 \text{ m}\Omega$ at 25 deg. C (MegaOhm C).				
	TOC :<30 ppb				
L	1		 		

		-			T		\neg
	Bacteria :<1 cfu/ml						
	Production Rate: 10 liters / Hr at 25 deg. C. pH : Effectively neutral						
	pH : Effectively neutral System should have 60 to 75 liters HDPE reservoir with level						
	sensors and switches from Original Manufacturer. <i>The water</i>						
	purification system should display the water level in %age and						
	graphical manner to know the water level in the reservoir.						
	STAGE -3						
	Third Stage system should have facility to remove Ionic and						
	organic impurities by the polishing purification pack.						
	Product water resistivity and temperature are measured						
	before dispense and indicate when the purification pack						
	needs to be replaced.						
ļ	System should have auto volume dispense for drop by drop						
	facility like a pipette (50ml to 7500ml).						
	System should have on-line monitoring for Resistivity or						
	Conductivity and TOC.						
1	System should have height adjustable dispenses point which						1
1	glides easily up and down to accommodate any size of						
	container.						
	System should have one time sanitization for 1 year.						
	The water within the unit should be recirculated through the purification technologies to maintain purity.						
.	purification technologies to maintain purity.						
	The system should have the safety feature includes -Low feed		-	•			
	Shut-Off, Audio-Visual Alarms, PIN coded system settings,						
	Dispense shut-off during disinfection Auto-restart.						
	The system should meet ASTM Type I, ISO 3696, NCCLS						
	Type I and USP & EP specification.						
	The system should be European CE and UL certified as well as						
	ISO 9001 for quality products. The system should have recirculation of the purified water to						
	maintain consistent peak quality.						
	Cartridge identification technology provides full traceability and						
	history of each cartridge for full validation and other GLP						
	requirements. The system to be supplied with validation						
	documents like IQ, OQ and PQ for system validation						
	Output Details:		4				
	♦ Inorganic : 18.2M Ω -cm @ 25°C						
	◆ TOC : <5 ppb						
	♦ Bacteria : < 0.1 CFU/ml						
	♦ Bacteria endotoxin: :<0.001EU/ml						
	♦ DNase :<4pg/μL						
	♦ RNase : <0.01 ng/ml						
	♦ Flow Rate : 2 Ltr./min.				•		
	♦ Particles : Ultrafilteration		-				
	Note: Vendor should quote 3 years consumables with AMC						
	charges for 3 years also and 3 years warranty on R.O. with 2
